To Whom it May Concern:

As the Artistic Director and conductor of Opera Tampa, I welcome the opportunity to recommend Joseph P. Oshry for his outstanding abilities as a lighting designer. His uncanny skill to enhance a theatrical production is extraordinary. He invariably contributes visual excitement to the images projected on stage, all of which is accomplished with a flexible enthusiasm and spirited cooperation.

Mr. Oshry is a formidable artist and technician and deserves further success in his chosen field.

Sincerely,

Anton Coppola
